

Meet the S Series

Seamless solutions for
seamless teams in motion

Introducing the Spectralink S Series – the next generation of innovative handsets designed to help critical deskless workers collaborate and communicate more effectively on the move.

With crystal-clear voice quality and a durable and ruggedised design, the S Series handsets provide secure and reliable communication for your teams in motion.

Spectralink S33

In a fast-paced work environment, customer expectations are higher than ever, and the key to meeting and exceeding those expectations is communication.

The Spectralink S33 handset equips staff with consistent, reliable and instantaneous communication so they can deliver exceptional customer experiences every time.

- Crystal-clear voice quality
- Long battery life
- Bluetooth & wired headset connector
- User selectable environment sound profiles
- Integration with any UCaaS platforms

Spectralink S35

The Spectralink S35 is a multi-faceted, rugged and durable DECT handset that puts best-in-class communication into the palm of deskless workers' hands.

Crystal-clear voice quality, intuitive user-interface and built-in safety features ensure the S35 provides mobile workers with the ideal solution to work productively and safely on the move.

- Large 2.4-inch colour display
- Voice & advanced messaging
- Alarm button
- Programmable side-key
- Usable with gloves

Spectralink S37

For workers in high-risk industries or who work alone, the ability to communicate clearly and instantly is crucial.

Built to meet the specific needs of these types of environments, the S37 handset is a dependable solution with advanced safety features that support deskless workers 24/7 and ensure a swift response in hazardous situations.

- Motion detection alarms
- Pull-cord alarm and alarm button
- Ruggedised & lightweight design
- IP67 dust and waterproof
- Flashlight
